

“Starting with Safety First” Program Outline

◆ Introduction (Explanation of Duties and how they apply to school)

- Prime’s jobsite Superintendent, Safety Director
- “We are all Strangers until introduced”

◆ Purpose

- One of our main focuses is the safety of Students, Teachers and Staff
- Explain to Students, Teachers and Staff what to expect during construction and after:
 - Construction Barriers (Show Examples)
 - New Building
 - Construction Fences (Show Examples)
 - Signage (Show Examples)
 - New finishes or changes they might see after construction is completed
 - Isolated work areas
 - Emphasize the importance of construction personnel only in these areas
- Safety is not only something to be used at school but all the time:
 - Give examples of how safety is important throughout daily life
 - Looking both ways before crossing the street
 - Wearing your seatbelt, etc...

◆ Identification Badges

- Show Poster (Enlarged Sample HISD Badge)
- Explain that all persons working on jobsite will be wearing a similar badge

◆ Mr.Yuk

- Explain that there are poisons on a job sit and the importance of not touching
- Show Mr.Yuk poster and explain that these stickers will be on poison materials on the jobsite
- Let students know that poisons are around everywhere not only on jobsite and let them know that their teachers will be passing out a sticker to place on their phone at home if they have the need to call poison control.

◆ Poster Contest

- Team project (each class is to work together to create one poster):
 - Explain that safety is not an individual job it is a team effort
 - One poster per class
- Prizes:
 - One set 1st, 2nd, & 3rd place per grade
 - 1st Place Pizza party
 - 2nd & 3rd place certificates

◆ Closing

- Team approach
- We are asking for the schools participation in reinforcing the concept that “Safety First” can and will make the school a safe place to learn while keeping the promises for better and safer schools.
